Huge Stockpiles Face Nation's Auto Makers

Cutbacks Launched With 4-Day Weeks, Plant Shutdowns

DETROIT (AP)—The nation's auto makers, faced with growing signs of the largest stockpile of new cars in history are launching a campaign of production cutbacks to slash inventories.

An industry source says General Motors reportedly is preparing to put many of its plants on a four-day work week. Ford Motor Co. is mapping week-long shutdowns—a move reported to be dictated by its union contract limiting the use of four-day work weeks. Chrysler Corp. faces much the same curtailment.

Ford announced Friday it will lay off 14,000 workers all next week at its huge River Rouge plant here and another 1,500 at its Louisville, Ky., facility in an adjustment of production schedules.

Ford also said an additional 4,000 Rouge production workers will be laid off next Thursday and Friday.

Chrysler announced it will lay off 2,000 workers at its DeSoto plant here and a like number at Kokomo, Ind., next week.

Ward's automotive reports said the stock of new cars will approach 900,000 by Feb. 28. At the prevailing selling rate, the agency said this is equal to a 69-day supply and the highest point ever reached in automotive history.

In the last two months the auto makers have lowered their production sights three times. They plan to build 1,418,000 units in the present quarter. That's a 21 per cent decrease from the first quarter of 1957. It's also the lowest since 1952 when production was cut back because of the Korean War.

Auto firms and the United Auto Workers frequently disagree on the number of unemployed.

According to company figures, Ford employs 120,000 hourly rated workers at some 80 plants across the nation, or about 23,000 less than in the first quarter last year. General Motors reports an estimated 345,000 hourly rated employees, compared to 387,000 at this time last year. Chrysler employed an estimated 108,000 production workers in the first quarter of 1957 and about 80,000 currently.

The production of cars and trucks this week was forecast at the lowest level of the year—94,573 cars and 17,476 trucks compared to 101,656 cars and 18,709 trucks last week.

5 Hanoverton Youths, Man Held In Thefts

Five Hanoverton area juvenile youths and a 21-year-old man are scheduled to appear before Judge Tobin Monday following their arrest in Hanoverton Friday.

Hanover Township Constable Roy Painter said the man, Bob Burham, will appear before the judge on a charge of contributing to the delinquency of minors. The juveniles are being held for the theft of gasoline, auto accessories and furs.

Painter said he, Assistant Constable J. R. Gause and Hanoverton Police Chief Don Sheen arrested two boys Friday for breaking into the Hanoverton home of Don Bailey Tuesday and stealing several mink and muskrat furs. Entrance was gained through a basement window.

The boys were traced after authorities recovered the furs which they had sold, Painter said.

During questioning, the youths implicated three other boys and Burham in the theft of gasoline from farmers' storage tanks in the Hanoverton area and car radios and other auto parts from a junk yard northwest of Alliance, Painter said.

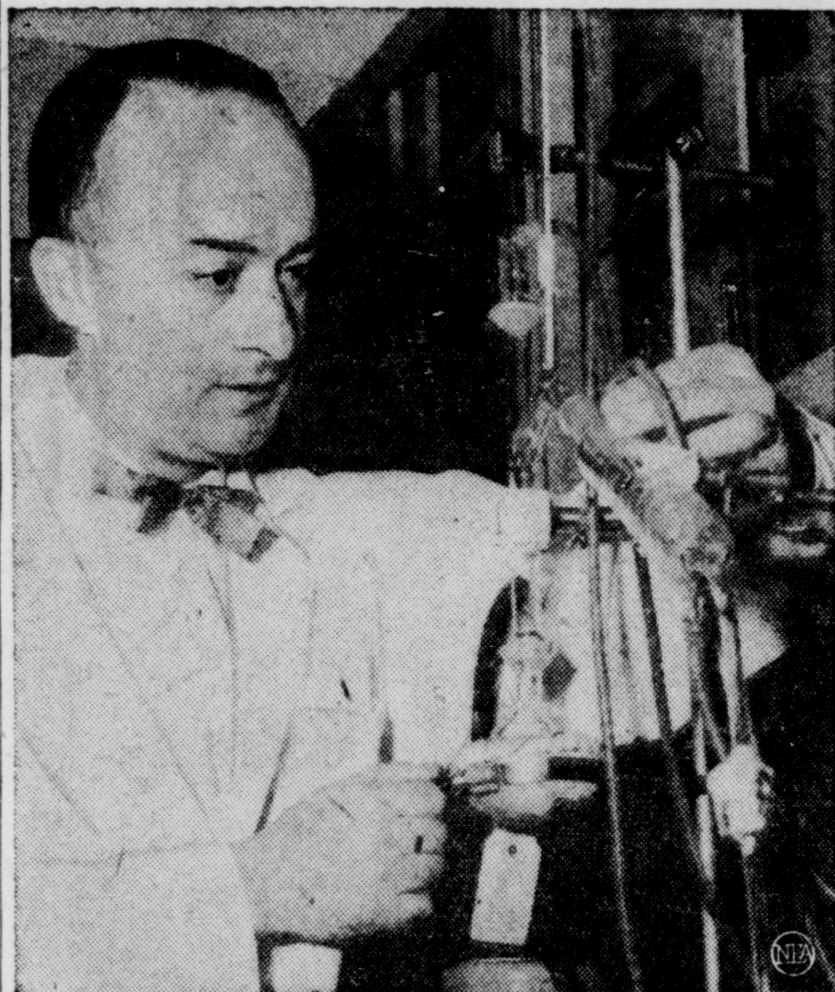

Burham received a preliminary hearing before County Judge Samuel Crawford at Lisbon and was released in the custody of his parents, the constable reported.

60 Attend Church Service In Lisbon

LISBON — Sixty persons attended the annual World Day of Prayer service held at the Methodist Church Friday afternoon.

A film, "The Voice of Prayer is Never Silent," was shown. Mrs. Tom Hemminger sang a solo, accompanied on the organ by Mrs. Loren Early. Mrs. Kenneth Clapsaddle, president, presided. Mrs. Charles Pike was narrator.

An offering of \$20 was collected. That sum, with another \$20 donated by grade school children, will be divided between foreign missions and home mission projects of the National Council of Churches.

Rhodes Gets 5-Year Prison Term

GI Plans to Battle Conviction as Spy

WASHINGTON (AP)—M. Sgt. Roy A. Rhodes, a career soldier who fell victim to Moscow vodka and women, says he will fight his court-martial conviction of plotting to spy for the Kremlin.

The 40-year-old sergeant was sentenced Friday night to five years in prison at hard labor after being found guilty of conspiring to commit espionage.

Nasser Formally Takes Over UAR

Celebrations Greet Results of Plebiscite

CAIRO (AP)—Some 7½ million voters in Egypt and Syria have almost unanimously approved merging their countries into the United Arab Republic under Gamal Abdel Nasser.

More than half a million widely cheering students jamming Cairo's Republic Square heard this result of Friday's plebiscite announced today.

The Syrian government of President Shukri Kuwattly quit in Damascus earlier today as Syria became a province in the union. Syrian Premier Sabri Assali offered to stay on with his caretaker government until Nasser appoints an executive council for the province.

Nasser—the former president of Egypt—assumed virtually absolute powers in the new republic.

The official results of the yes-no plebiscite announced from Abdin Palace overlooking Republic Square were:

On the union of Egypt and Syria, out of 6,102,375 Egyptian voters, 6,102,128 approved, equal to 99.99 per cent.

On Nasser as president, 6,102,116 Egyptians approved also 99.99 per cent.

On union, out of 1,312,798 Syrian voters, 1,312,798 approved, equal to 100 per cent.

2 Planned to 'Discover' Human Arm

Bizarre Plot to Free Ewing Scott Uncovered

LO ANGELES (AP)—A bizarre plot to bury and "discover" a human arm in an attempt to free Ewing Scott, convicted of murdering his wife, was reported Friday by the district attorney's office.

Two men have been arrested.

Police Capt. Arthur Hertel said he was told that the idea back of the plot was that the arm would constitute new evidence. Scott, 61, under a life sentence, is in the county jail pending appeal.

Dep. Dist. Atty. Manley J. Bowler identified one man arrested as Frank Massad, whom he described as an investigator for Scott's former attorney, P. Basil Lambers.

The other man being questioned, Bowler added, is Richard Mowrey, who described himself as a private investigator.

Massad, arrested in Lambers' office, was booked on suspicion of falsifying evidence. Late Friday night he was released on \$2,500 bail.

Bowler said Lambers "is not a

"I intend to fight," Rhodes told newsmen after the court announced the sentence, which includes dishonorable discharge from the Army and forfeiture of all pay and allowances.

The military court of 10 officers also convicted him on a companion charge of falsifying a loyalty certificate.

Rhodes, a veteran of 15 years military service, could have drawn life imprisonment on the first charge and one year in jail on the second. But the court decreed the five-year term will cover both.

Both the verdict and the sentence will be reviewed by the commander of the Military District of Washington, Maj. Gen. John G. Van Houten. That could mark the beginning of a lengthy review and appeal procedure that could take months.

Van Houten can approve both the verdict and sentence, throw out the verdict or reduce the sentence. He can't, however, make the sentence more severe.

From Van Houten, the case probably will go to an Army Board of Review and possibly to the Court of Military Appeals, the supreme court of military justice. Rhodes' lawyers also hinted they might take the case into civilian courts.

The janky sergeant stood erect as the verdict was read but then slumped in his chair. He received the sentence later with outward calm. But his slender, brunette wife, Ola, and his sister, Mrs. Arlene Brown of Radium, Colo., broke into tears both times.

Rhodes, a native of Oilton, Okla., now living at Eatontown, N.J., had pleaded innocent to the charges, stemming from his duty as head of the U.S. Embassy motor pool in Moscow in 1951-53.

The prosecution accused him of falling under the influence of Soviet agents. Evidence was introduced, including signed statements by Rhodes himself, that he attended drunken parties in Moscow and wound up in bed with women.

Guards at Ohio Pen Foil Escape Attempt by Four

Three Described As 'Very Dangerous' By Prison Warden

COLUMBUS, Ohio (AP)—Guards Friday night foiled the first attempt to go over the wall at Ohio Penitentiary since Warden Ralph W. Alvis took over his job 10 years ago today.

Four convicts, three of whom Alvis labeled "exceedingly dangerous," were captured as they tried to put together ladders long enough to scale the 32-foot high wall.

"What an anniversary present they were going to give me," said the stocky warden, only recently released from a hospital after losing an eye in an auto accident.

All four prisoners were placed in solitary confinement after the abortive attempt.

They were unarmed and gave up without a struggle as a dozen guards, tipped off to the escape plans through the prison "grapevine," swarmed into the room used to store ladders.

The east wall, which the four said they planned to go over, is only 40 feet from the ladder room.

Alvis identified the quarter as Theodore A. Jackson, 35, and his brother William C., 48, both of Columbus; Edward Mischler, 51, Cincinnati, and George Vertz, 29, Milwaukee.

The warden used the term "exceedingly dangerous" in reference to all but Vertz. But he called all of them "rough characters."

The Jackson brothers are serving 30 to 80 years for armed robbery, kidnapping and auto theft. They participated in the robbery of a Columbus supermarket Jan. 9, 1955, in which the store manager's wife and two children were held hostage at home. The manager was forced to empty the store safe of \$600.

Mischler, convicted for robbing \$10,000 from the Hub Federal Savings and Loan Assn. here Feb. 16, 1949, is now serving his fourth prison term—a life sentence. If he ever gets out, Alvis said, six other Ohio cities also want him for bank robbery.

2 Die, 2 Hurt In Columbus Plane Crash

COLUMBUS, Ohio (AP)—Crash of a single engine, four-passenger airplane here today killed two persons and injured two others critically.

The plane crashed in a field a half mile north of Morse Road and 300 yards east of Beecham Road in Columbus' northeast suburban area.

The fire chief of suburban New Albany, Fred Whitehead, identified the dead pilot as Albert L. Butts, 23, of Loudonville, an Ohio State University student.

Two girls, believed to be sisters, were in the plane. They are Susan Chickaw, 20, and Betty Wulechik, 19, both of Columbus. One was killed and the other hurt, but authorities had not made definite determination which one of the two had been killed.

Kenneth N. Thomas, 24, of Columbus, was hurt critically.

Paul Brunning discovered the plane in a field adjacent to his farm. All four occupants were pinned in the plane which was all but destroyed. Rescuers tore off a wing to get one of the men out and a wrecker was used to tear off the front of the plane to get the other occupants out. The two injured were unconscious.

Brunning said the plane apparently came in on a belly landing at about a wire fence, and appeared to have been trying for an emergency landing.

Butts, a member of a flying club, had rented the plane from Northway Airport, Inc.

Motorist Is Cited Following Accident

Cars driven by Charles Papendry, 42, of East Liverpool and George Pephel, 28, of RD 1, East Liverpool sidwiped at 9:50 a. m. Friday on Rt. 267, a mile north of East Liverpool, state highway patrolmen reported.

The mishap occurred as Papendry attempted to pass Pephel's auto on a curve, patrolmen said. Papendry was cited for passing over a yellow line.

Rigby Mast Admitted Embezzlement

Former Welfare Head Is Placed on Probation

LISBON — Rigby Mast, 44, of RD Leetonia, former Columbiana County welfare director charged with embezzlement was placed on five years' probation by Judge Joel H. Sharp at probation hearings Friday.

Mast, formerly of Lacroft, had admitted taking \$1,651.32 in county funds in 1956 and 1957. He resigned his county job Sept. 1, 1957, shortly before he was secretly indicted by the September Grand Jury on four counts of embezzlement.

In other hearings Friday, Judge Sharp sentenced on man to prison and fined another man.

Mast's attorney gave a lengthy opening statement in Mast's behalf citing his excellent service record and the fact that he had no previous criminal record.

County Prosecutor G. William Brokaw also cited Mast's good character until the time of the offenses. He said Mast, in admitting his guilt, had lifted suspicion from other workers in the department. The prosecutor said he felt Mast's character was such that he would not again engage in offensive conduct, and that public good didn't require immediate sentencing of Mast.

Judge Sharp said if Mast had not admitted all the shortages uncovered, he would have given him a choice of going to the penitentiary on one of four indictments returned by the Grand jury or

changing his plea to not guilty and stand trial.

He told Mast he would have to make restitution at \$30 per month and keep up his alimony payments.

Appearing in behalf of Mast were Russell Smith of East Liverpool and

Ike To End Hunting; Go To Capital

THOMASVILLE, Ga. (AP)—President Eisenhower hopes to get in more quail hunting today — the last of his southland vacation.

The President plans to start back to Washington Sunday. It still is uncertain whether he will fly directly there or escort Mrs. Eisenhower to Phoenix, Ariz.

The first lady's decision on whether to vacation in that area for a few days was expected during the day. If she decides to go to Phoenix, she will travel there tomorrow with her husband aboard his private plane, Columbine III.

James C. Hagerty, White House press secretary, said Friday night Eisenhower expects to be back in Washington by Monday morning even if he goes home by way of Phoenix.

Hagerty told newsmen that so far as he knows Eisenhower would be on the ground only briefly at Phoenix—a couple of hours or so at the most.

The President had been planning to speak at a morning meeting of a national food conference. Late Friday Hagerty said that Vice President Nixon would substitute for Eisenhower.

The substitution was arranged Hagerty said because of the possibility the President might not get back to Washington in time for the food conference.

Eisenhower came to Thomasville Feb. 13 as the vacation guest of former Secretary of the Treasury George M. Humphrey.

RCA Indicted For Antitrust Violations

NEW YORK (AP)—Radio Corp. of America, indicted Friday on criminal charges of violating the antitrust laws, says it has for years "licensed all comers" to promote competition.

The four-count indictment, returned by a jury here, was announced in Washington by Atty. Gen. William P. Rogers.

The jury claimed that RCA has monopolized the electronics equipment field in radio, television, radar and guided missiles in violations of Sections 1 and 2 of the Sherman Antitrust Act.

RCA said company officials had not had an opportunity to study the indictment.

The government brought a civil antitrust suit against RCA in 1954. That action still is pending.

The criminal that RCA controls more than 10,000 patents in the field, has stifled research and development in radio and TV by refusing to license its patents except in packages, and has made deals with foreign and domestic

Juveniles Penalized On Traffic Counts

LISBON — Traffic court hearings at the Court House this week resulted in the suspension of the driving permits of two juvenile drivers, and the bond forfeiture of another.

Emil John Weber, 16, of 317 E. 4th St., Salem received a 60-day suspension of his license for driving a car without license plates and also was placed under an 11 p. m. curfew until Sept. 1.

Harry Lenzhour, 17, of 688 Fair St., Salem, was ordered to refrain from social driving for 30 days after he pleaded guilty to a charge of driving left of center.

Francis Jergons, 16, of Midland, Pa., forfeited a \$25 bond for speeding.

Samuel M. Stacey, 17, of East Liverpool RD 1, caught driving without license, was ordered to refrain from driving until he gets a license.

Houston Scene Of Youngstown Man's Capture

Described as 'Brains' In Embezzlement of Insurance Company

HOUSTON, Tex. (AP)—Houston and Youngstown, Ohio, police Friday night arrested a 29-year-old Ohioan they described as the brains behind an embezzlement of \$200,000.

John James Tobin, who was elected to City Council in Youngstown last November, was grabbed as he walked into his apartment.

A second man, Paul E. Shade, 30, charged with aiding and abetting an embezzlement, became wary of activity around the place, returned to a car he and Tobin had just left and fled, Houston police Lt. Herman Short said.

Lt. Frank Watters of Youngstown bomb squad and six fellow officers joined Houston police in trapping the stocky Tobin.

Tobin was an adjuster for the American Associated Insurance Co. of Youngstown, victim of the embezzlement.

Used Fake Reports Police said Tobin and confederates used fake accident and hospital reports to substantiate claims in automobile accidents.

A Youngstown physician, Dr. James W. Barnes Jr., was among 16 other persons arrested in the case, police said. They said Barnes, now free under \$3,000 bond, signed medical reports for fictitious persons allegedly involved in accidents.

Tobin said he fled Youngstown the morning of Jan. 6, the day he was to attend his first City Council meeting.

Shade managed Tobin's campaign for the council and was described by Watters and Mahoning County (Ohio) Prosecutor Thomas A. Bell, who also was in on the arrest, as the No. 2 man in the scheme.

Arrested In Los Angeles Allen Jerome Swain, a 27-year-old lawyer, was arrested in Los Angeles in connection with the case one week ago. Police said he was in Houston before going to California.

Tobin, Shade and Swain met when they attended Ohio Northern University at Ada.

At the police station where he was booked, Tobin was asked by reporters how he got involved in the scheme.

"I don't know why I did it," he said.

Asked how much money he received, Tobin told reporters he did not know, "but they (the police) tell me it was quite a bit—about \$200,000."

Little Money Found Information sent here by Ohio officers in January described Tobin as a flashy dresser. But when he was arrested Friday night, he was wearing a cowboy hat, kakhli trousers, a sport shirt and a light jacket.

Police described money found on Tobin as "peanuts." Tobin said he had been loafing since he came to Houston but planned to try to get a job.

Tobin said it cost him a great deal to run for office.

"We had so much publicity I could have been elected president," he said.

He said he knew two weeks before he fled Youngstown that "we were caught."

Swain Had Only \$33 When Swain was arrested at the Biltmore Hotel in Los Angeles, after arranging for his surrender through lawyers there and in Youngstown, he had only \$33.

Police said Tobin had been living in Houston since Jan. 8 under the name of Donald W. Lucky and Shade was known here as John P. Spears.

In Youngstown, investigators said Tobin, Shade and Swain skipped town shortly after authorities started checking Tobin's accounts. Before they left, police said, they

Stark, Carroll Farmers Protesting

Gripes to Be Expressed on Way State Acquires Land For Roads

COLUMBUS, Ohio (AP)—Property owners disgruntled over highway condemnation proceedings will have a chance to complain to a legislative study committee.

Rep. Louis J. Schneider Jr. (R-Hamilton), chairman of a committee looking into eminent domain laws, has scheduled a public hearing for 10 a.m. March 20 in the Statehouse.

Schneider said officials of the Highway, Public Works and other state departments will be invited to attend. Invitations also will go to statewide groups interested in revising or codifying such laws.

The hearing will be open to individuals for suggestions, he emphasized.

The seven-member committee will make recommendations for consideration by the next General Assembly.

Sen. Ed Witmer (D-Stark), a committee member, said farmers in Stark and Carroll counties had asked to lodge protests over the manner in which their land was taken for highway purposes.

Owners claim they had no chance to negotiate on payments under

the procedure now used by the state in obtaining right of way land.

"What makes people mad," said Rep. William W. Milligan (R-Shelby), a committee member, "is to see a neighbor paid more for his land."

A separate study committee met to look into state and local government financial problems. Sen. Charles A. Mosher (R-Lorain), committee chairman, expressed belief that the state may be asked by cities for laws to help them collect their municipal income taxes.

Reports showed that at least 10 Ohio cities now levy such taxes.

Rep. Bishop Kilpatrick (D-Trumbull) a committee member, reported a move in Canton to require help from factories outside the city in collecting the tax from residents working in those plants. That would be done, he said, by threatening to shut off water to the plants if they refused.

Both committees are branches of the Legislative Service Commission, fact-finding arm of the General Assembly.

School Board Assn. To Meet In Lisbon

LISBON — The Northeastern Ohio School Board Association will hold a "neighborhood night" at Lisbon High School Tuesday, March 11, at 8 p.m.

The meeting is planned to give school boards in Columbiana, Mahoning, Jefferson and other neighboring counties information regarding activities of the association.

Lisbon was selected because of its central location. Other association meeting sites are Chagrin Falls, New Philadelphia, Hayesville and Oberlin.

Local talent will be used for a "Docudrama," which bears the subtitle of "We Call To Mind."

Mrs. Edwin L. Kauffman of 405 E. Chestnut St., will act as agent-in-charge of the production, with Mrs. Eddie R. James, 602 E. Chestnut St., as local producer.

The cast includes Robert Hendricks, 875 N. Market St., cost accountant; Mrs. Richard Kennedy, 26 N. Park Ave., housewife; Mrs. O. D. Mason, RD 5, teacher; John Lewis, 875 N. Market, teacher; and Charles Faust, 513 E. Chestnut, personal loan manager.

Invitations to attend will be sent to all school boards in Columbiana, Mahoning, Jefferson and surrounding counties.

Rain Falling Over Scattered Areas In U.S.

By The Associated Press
Rain or drizzle dampened scattered sections of the country today, but a general warmup east of the Mississippi River was the most significant weather development.

A new chill slipped into the northern plains, dropping temperatures to just below zero in parts of Minnesota and North Dakota, but it lacked the bitter arctic flavor of previous cold waves.

The eastern warming trend brought the mildest weather since early February, and the Weather Bureau said any rapid thaw of the heavy snow cover in the North-east could pose flood threats for many sections.

Heaviest rainfall was recorded along the Gulf Coast where Corpus Christi, Tex., measured one inch of rain overnight—bringing its 48-hour accumulation to four inches.

Scattered thunderstorms broke out over parts of Texas, and more showers were in prospect for New Mexico.

Drizzle fell from the Ohio Valley and the Upper Great Lakes eastward to Pennsylvania, and some light snow was reported in the Great Lakes area.

Rain moved eastward into the Middle Atlantic states, and snow or snow flurries were expected to continue light near the Great Lakes and extend into New England during the day.

The only other area of precipitation was along the Washington-Oregon coast.

Temperatures were 10 to 20 degrees higher than Friday morning over most of the Mississippi and Ohio valleys, with Florida also showing warmer weather.

The greatest warming occurred at Elkins, W.Va., which reported 41 degrees, against four above zero 24 hours earlier. It was warmer over much of New England, too.

2 E. Liverpool Youths Are Held In Thefts

LISBON — A 17-year-old Glenmore boy and Robert Beatty, 19, of East Liverpool who admitted stealing six auto radiators from Art's Auto Wrecking Co., at the junction of Rts. 7 and 30, north of East Liverpool, are in Columbiana County jail awaiting a hearing before juvenile judge Louis Tobin and County Judge Luther Donbar of East Palestine.

The youths were arrested by sheriff's deputies in Glenmore Friday.

Three radiators were found in Beatty's car, and some allegedly were sold to the Caplan Junk Yard, East Liverpool.

The value of the radiators was estimated at between \$10 and \$20 apiece.

Sheriff Russell Van Fossan also reported two pay phones were broken into during the past few days, at a grocery store at the junction of Rts. 7 and 517 at East Fairfield and at Brookside Park on Rt. 7, south of Rogers. An estimate of the amount of money taken could not be given by the phone company.

The sheriff's office is also looking for an air hammer stolen sometime this week from the R. and R. Coal Company on the Y & O Road between Glenmore and Rt. 30 towards Lisbon.

Goshen Senior Play Will Be Repeated

The senior class at Goshen Union High School presented the play "Who Killed Aunt Caroline?" Friday night in the school auditorium.

Directed by Paul Elsass, the play, which was well received by a large crowd, will be repeated at 8 tonight.

The cast includes Alexandria Petrechoff, Patricia Denny, David Kile, Carol Berger, Glenda Maurer, Joyce Anderson, Karen Kerr, Douglas Birkhimer, William Hutson, Marilyn Beck, Betty Ewing and Wayne Walter.

The school band, under the direction of Allen West, entertained with several numbers, and there was a trumpet solo by Donald Denny, accompanied by Patricia Denny.

Joe Walton of the Washington Redskins intercepted only one pass last season. The play covered 55 yards.

Chuck Share, 6-foot-11 basketball player with the St. Louis Hawks, wears No. 13.

By tonight the No. 9 pool at New Cumberland, W. Va., should be free of ice, Greenwood said.

Traffic on the river, because of the ice and slush and the low level, is at a minimum.

Flood Threats Lessen On Upper Ohio River

EAST LIVERPOOL, Ohio (AP)—"Threat of flood conditions diminishes by the hour," on the upper Ohio River, a lockmaster said here today. Ice ran out of pool No. 7 at Midland, Pa., and No. 8 at Newell, W. Va., Friday night.

A slow runoff and gradual cleanup of ice without gorging seems likely, Sumner Greenwood, lockmaster at No. 7 pool said.

Warmer weather and a light rain raised the river level here eight-tenths of a foot Friday night, dislodging ice from the two pools. The upper Ohio level, which had been the lowest in 10 years, now is about six feet.

By tonight the No. 9 pool at New Cumberland, W. Va., should be free of ice, Greenwood said.

Traffic on the river, because of the ice and slush and the low level, is at a minimum.

Free Election To Be Held In Argentina

BUENOS AIRES (AP)—Argentina votes Sunday in the first free presidential election in more than a decade, which pits provisional government supporters against backers of ousted dictator Juan Peron.

All campaigning ended Friday night in the presidential race and contests for legislative and provincial posts. Provisional President Pedro Aramburu planned a midday message to the nation.

Because of Argentina's complicated ballot system, which guarantees minority parties a legislative voice, results of anything less than a landslide might not be known for days.

The big question is whether Arturo Frondizi has attracted enough Peronist support to defeat moderate Ricardo Balbin, who has the provisional government's tacit support.

Only Balbin and Frondizi among the 13 presidential candidates are given a chance. The winner will take office May 1 for a six-year term.

Frondizi is backed by an incongruous coalition including Communists, left-wingers, Workers, Fascists and Peronists. Former members of Peron's government, as well as the provisional government members who kicked Peron out in 1955, are barred from running for office.

If Balbin is elected, he can be expected to encourage foreign investment and might even give foreign companies a hand in developing Argentina's oil and mineral resources. He wants nothing of Peron.

Frondizi, whose many political debts make him unpredictable, has few plans for luring foreign capital and speaks of "oil only for the Argentines." He has pledged amnesty to Peron's outlawed party and never flatly opposed Peron's return.

Balbin told a nationwide radio audience that he needed no "directions" from Peron to tell him what to do and warned against a return to the tyranny that "enveloped Argentina for 12 years."

In The Service

Airman Carter L. Clapsadle, son of Mr. and Mrs. Paul Clapsadle of Church Hill Ext., Salineville, received top honors and a trophy from the University of Denver last week in recognition of his continued outstanding progress in the field of medicine.

He is more than fulfilling his ambition within the medical field on a part-time basis. Airman Clapsadle's primary duty is as instructor in advanced electronics with the Air Force, stationed at Lowry Air Force Base in Denver. He has achieved his high goal during his evening hours when not employed by the Air Force. Beginning with the fall semester, he intends to continue with his scholarship with the junior class on a full-time basis.

A graduate of Salineville High School, he is married to the former Martina (Tina) Briceland, daughter of Mr. Joseph Briceland of Summitville. He has a son, Lee, age 2 1/2 yrs.

Upon graduation from medical school, he and his family plan to purchase a home in Phoenix, Ariz., where he wishes to start his practice.

Prosecutor Brokaw told the court that he went to Texas and ascertained that the defendant was there as he claimed when he was supposed to have passed a forged check bearing the name of William Lodge of Columbiana at a store in Columbiana Aug. 12.

Chief William McGuckin of Columbiana went to Phoenix, Ariz. Dec. 13 and returned Eames after a clerk at the A & P Store in Columbiana identified Eames in a up held at county jail last week. The bogus check at the store. A check was passed at the A & P Store in East Palestine the same day, but the clerk there was not able to identify Eames in a line-up held at county jail last week.

Judge Raymond S. Buzzard commended the prosecutor for his action in dropping the case.

Eames was turned over this morning to Gallia County authorities who had a warrant for him on a bastardy charge.

Nasser

(Continued From Page One)

ian voters, 1,312, 759 approved, 99.98 per cent. On Nasser 1,312, 808 Syrians approved 99.98 per cent.

The sweeping approval had been a foregone conclusion.

The vote was taken peacefully as Egypt's border dispute with the Sudan was put into deep freeze, probably until at least March 9, by an agreement to continue negotiations after that date.

Announcement of the plebiscite results turned Egypt and Syria, which are more than 100 miles apart, into two provinces of one nation of some 29 million people. The formal creation of the state which was proclaimed Feb. 1, is naled:

1. Resignation of Syrian President Shukri Kuwaly along with both the Egyptian and Syrian cabinets.

2. Dissolution of the two parliaments and all political parties.

3. Appointment by Nasser of a central cabinet, executive councils for regional administration of Egypt and Syria and all members of a unified parliament.

4. Establishment of a national union under Nasser to replace political parties.

Nasser will hold these powers for an unspecified period while a new constitution is being written.

In New York, the U.N. Security Council turned the Sudan issue back to private negotiations between the two countries as Egypt announced willingness to resume talks with Sudan after Sudanese parliamentary elections are held for 10 days starting next Friday.

Egyptian-Sudanese talks here had broken down Wednesday.

Washington Was Always Misunderstood

The most neglected characteristic of George Washington during his long service to the republic he saved from early ruin, first at the hands of its enemies abroad, later at the hands of its enemies at home, was selflessness.

This was beyond the comprehension of most of his contemporaries, including many whom he regarded as his loyal friends, that a man with such great capabilities for getting what he sought did not seek anything for himself.

Try as he would and did to make it clearly understood that he thought of himself only as the servant of his comrades-in-arms and later of his comrades-in-republicanism, he was misunderstood. Lesser men, blinded by their own self-seeking ambitions, could not believe that the greatest man among them had no ulterior motives.

They never freed their mind wholly of a suspicion nurtured by their own thoughts, that Washington wanted to be king, dictator, or both. They never took him wholly at his word when he said with all the earnestness at his command that he wanted nothing so much as to live on his own terms in the philosophic calm he found at Mt. Vernon. That was not what they would have dreamed of in Washington's position as the strong man in a weak country; they could not believe he was above self-advancement.

He fought as hard when the Revolution

had ended in victory to win victory for republicanism as he had fought to stave off military defeat. At one point, in despair over his seeming inability to share his own confidence in popular sovereignty with his countrymen, he was to write: "The mass of citizens in these United States mean well, and I firmly believe they will always act well whenever they can obtain a right understanding of matters."

But there was no time in his public-service career when he could relax in the certainty that understanding had been achieved. As the world's first and still most momentous experiment in popular sovereignty has moved into historic perspective, his stubborn devotion to ideals that were persistently undermined and rejected by his contemporaries has become the measure of his greatness.

There have been soldiers who knew more about strategy and tactics. Other administrators have outshone him in the art of getting what was needed from confused and corrupt public agencies. There may even have been presidents who had a surer executive touch than he had at a moment when uncertainty could have killed a newly-created country.

But no American ever filled a high place with such selfless devotion as that of George Washington, who served his country even though his countrymen misunderstood him often more than they ever understood him.

Procedure For Presidential Fill-In

It looks as if long discussion had hammered out a solution for the problem of how to determine presidential disability.

The procedure outlined by the subcommittee of the House Judiciary Committee has the merit of simplicity. Instead of setting up a complicated series of steps, it calls for an eight-member commission to determine disability and also the termination of disability. That's all there would be to it—no constitutional amendment and no voting by Congress. The whole job would be done by the major party leaders in Congress, the heads of the two houses of Congress, the secretary of state and the vice president, although he would have no vote in the commission's decision.

This seems to have been the key that unlocked the dilemma for the subcommittee, the proper role of the vice president in the event of presidential disability. The Constitution states clearly that the alternate to the president of the United States is the vice president, although it does not state clearly how presidential disability is to be determined.

But as long as the vice president is the official who fills in for the president, logic dictates that he should be able to do this without delay if it becomes necessary. Hence, the need for an agreed-on procedure, which is the essence of orderly government.

President Eisenhower has taken the initiative in urging action on procedure. There never was room for argument about principle.

It is interesting to note that the procedure which apparently is going to be recommended follows the ideas of former President Truman, except for including the secretary of state in the disability commission. Mr. Truman would have preferred the chief justice of the United States. His plan also called for a vote of Congress on the commission's recommendations.

Once Over

TV has brought a new type of hypochondriac, the fellow who gets his medicines from his video screen. He regards his TV set as a combination pharmacy and doctor's office. It is his idea there is nothing wrong with him that a commercial can't cure.

He finds solace in twisting a dial to get any pill, capsule or elixir he thinks he might need. He may be in bad shape from trying everything recommended through TV shows, but he can't resist a diagnosis and prescription from a source that has no office hours.

HE IS SO GULLIBLE that he expects Trendex ratings for headache powders. He is satisfied if he finds his illness diagnosed on a cowboy film, gets his medical checkup during a quiz show and finds a satisfactory pill between a wrestling program and the "whodunit." It is confusing.

There are times when he isn't sure whether he got over his heartburn with the help of a western posse, and Alaskan dog team, Abbott & Costello or Victory at Sea. We know a man who has built himself a video set with medicine cabinet attached.

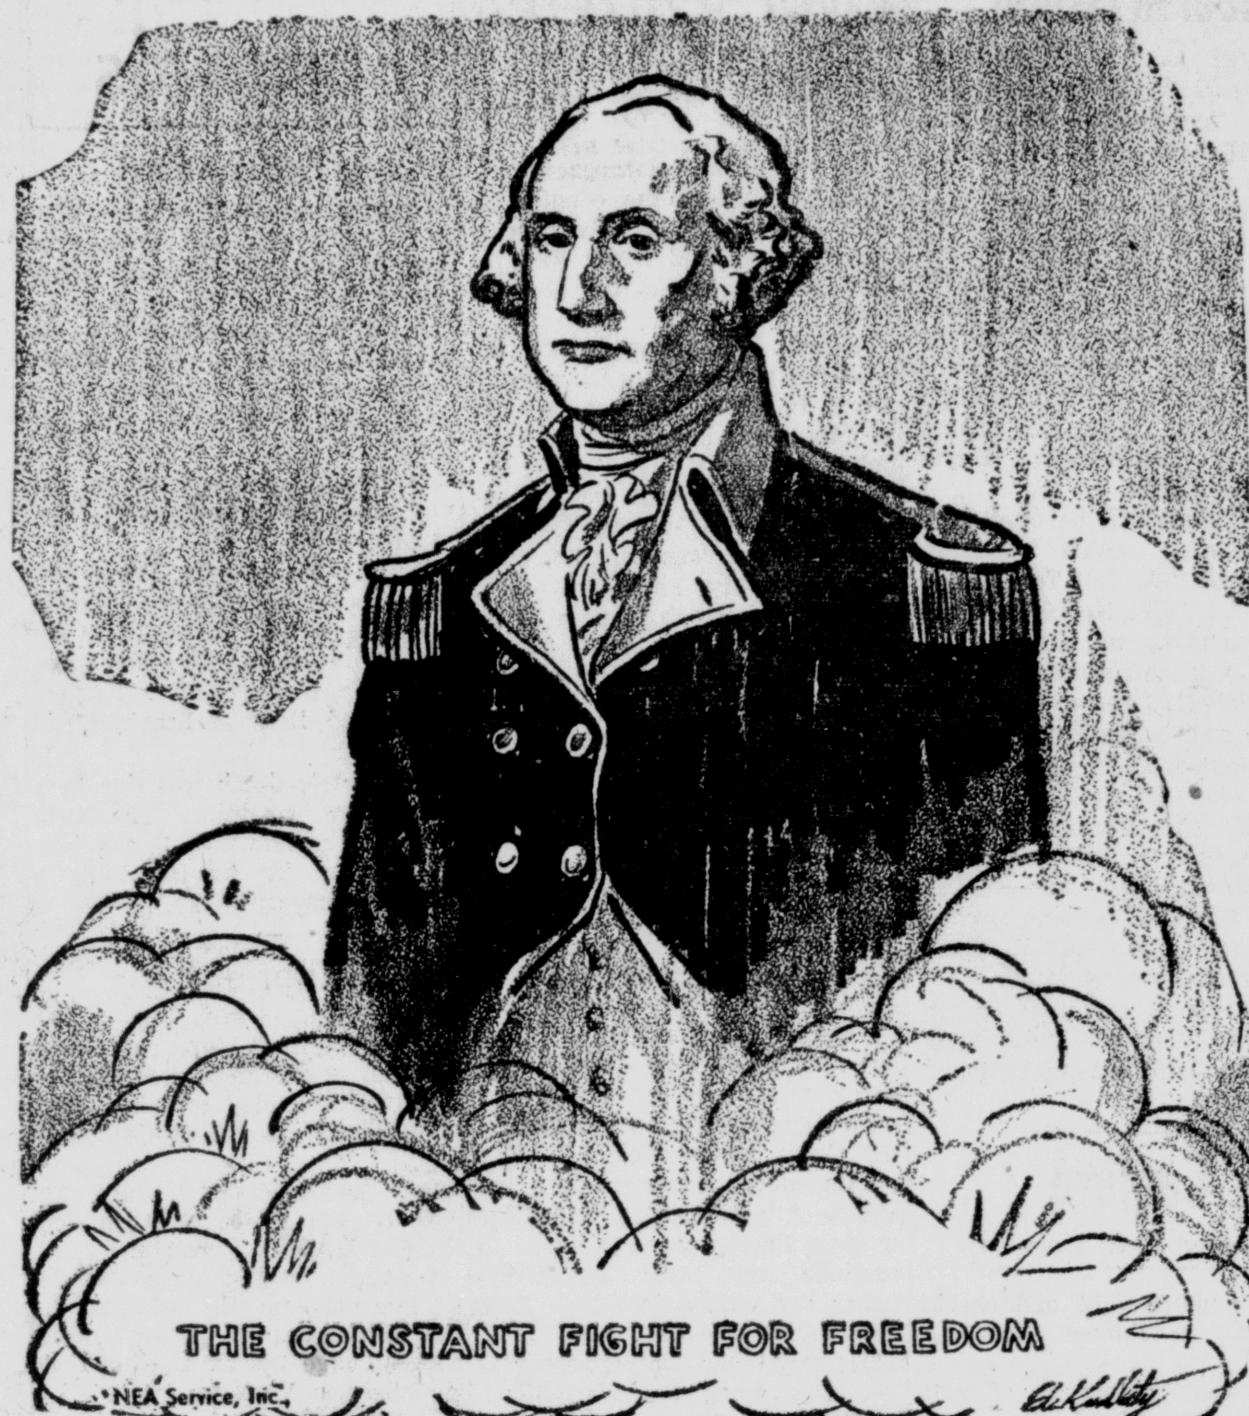

HE FEELS GOOD NOW and attributes it largely to the rash of old movies, whose action is interrupted every few minutes by a pitch for some new medicine.

The trouble is that if he has a relapse he won't know whether to blame it on Norma Talmadge, Claudette Colbert, Joan Bennett, Ronald Coleman, Cecil B. DeMille or a more youthful Clark Gable. "I got rid of acidosis through a rerun of 'Gone With The Wind,'" he said today. "But my rheumatism returned and I blame it on wrong medical advice from an old Lionel Barrymore film."

THE GUY IS REALLY in a bad way. If a western has a commercial for medicines he lets a frontier marshall look at his tongue and take his pulse. "Do you think you get the best pills and tablets on the afternoon or evening programs?" we asked. "I'm mixed up," he admitted. "Sometimes I ain't sure if I'm in the middle of a TV show or an infirmary."

Thoughts on Recession

By JAMES MARLOW

WASHINGTON (AP) — The Eisenhower administration — within a week after the President spoke optimistically about it—seems to be having second thoughts on when the recession will start disappearing.

On Feb. 12—one day after government statistics showed 4½ million people unemployed — Eisenhower issued a special, reassuring statement on the outlook for the down-sliding economy.

He said in part: "From the best advice I can get, and on my own study of the facts regularly

placed before me, I believe that we have had most of our bad news on the unemployment front."

But Wednesday Eisenhower's special assistant on economic affairs, Dr. Gabriel Hauge, made a speech saying the President's statement had been "misread by some people." He said this was a problem in communications.

But Hauge himself almost certainly must have read the presidential statement before it was written and may have had a very influential hand in writing it.

Hauge said: "... The March figures on unemployment will

become available during the second week in April. It is most unlikely the February figures reported in March will show any improvement over the January figures reported last week. Rather the contrary is to be expected."

But that hardly jibes with what Eisenhower said and it is difficult to see how what he said could have been misread by anyone. Eisenhower said he believes "we have had most of our bad news on the unemployment front."

But if Hauge is right—that the February figures, to be issued in March, will probably show more unemployment than in January—then Eisenhower was wrong in saying most of the bad news is past.

Eisenhower also said Feb. 12: "... Every indication is that March will commence to see the start of a pickup in job opportunities." That was a pretty heavily qualified statement.

Even so a number of economists disagreed with the President. They didn't say an upswing wouldn't come eventually. But they were skeptical that March "will commence to see the start of a pickup in job opportunities."

It was, perhaps, this reaction of economists which Hauge had in mind when he said the President's words were "misread by some people." So Hauge set out to correct anyone who thought Eisenhower had forecast an upturn in the economy in March. He said that was a "mistaken impression."

He wound up qualifying his correction more heavily than Eisenhower did his original statement. This is what Hauge said: "Improved employment in March, reported in April, should constitute a good sign that the downturn was running out of steam."

Eisenhower said that a pickup in employment in March "should mark the beginning of the end of the downturn in our economy."

Hauge didn't seem to want to go that far. He said: "Obviously, an economy as vast and complex as ours does not change its direction abruptly and proceed to turn around on a dime."

Hauge said he would expect to see the downturn "slow to a stop during the second quarter." The second quarter runs from April 1 to July 1.

Security Is Self Aid

By DAVID LAWRENCE

Foreign Assistance Is For Mutual Safety

President Eisenhower has endeavored in his latest message to Congress to get away from the phrase "foreign aid" and to emphasize "mutual security" as the basis for an appropriation of \$3,942,100,000 to help fight the "cold war."

Lots of people have gotten the impression, largely from critics of the program, that the main purpose of the funds is a sort of "give-away" to foreign countries. The President, in recommending essentially the same component parts as he did last year, spells out in greater detail the significance of the project in terms of American life. Thus he outlines what could happen to the people of the United States in the event the "mutual security program" is not adopted. If the program were discontinued or "sharply" reduced, he says the consequences would be as follows:

"A severe dislocation and basic impairment of free world power."

"A certain crumbling, under Sino-Soviet pressures, of our strategic overseas positions and a forcing of these positions progressively back toward our own shores."

"A massive increase in our own defense budget, in amounts far exceeding mutual security appropriations, necessitating increases in taxes."

"A heavy increase in inductions of American youth into our own armed forces."

"And ultimately a beleaguered America, her freedoms limited by mounting defense costs and almost alone in a world dominated by international Communism."

THE PRESIDENT makes it clear that the purposes of the program are "military, economic and technical cooperation with other nations" and adds this warning:

"It is not enough, however, that our military assistance and defense support help to prevent Communist expansion by force of arms. We are equally concerned by the danger of Communist absorption of whole nations by subversion or economic penetration."

Mr. Eisenhower does not mention the vast sums being spent by the Soviet Union, which is denying her own people essential things in order to win over the governments in vast territories where poverty-stricken peoples are anxious to get aid at almost any terms from the outside.

There are various estimates of

what is being expended by the Communists, some of them running into sums far larger than anything the President recommended. But there is a phase of self-interest other than defense and security to which the President draws attention as follows:

"We also have an economic interest in promoting the development of the free world. In the years to come, the increased economic strength of less developed countries should prove mutually beneficial in providing growing markets for exports, added opportunities for investment, and more of the basic materials we need from abroad."

IN EXPLAINING the allocation of funds, the President points out that, in the "defense support" category which requires 835 million dollars, about 70 per cent would be used in Korea, Formosa, Viet Nam and Turkey.

These funds support the "front lines" of the United States in the Far East and in the Middle East, but there is also an item of \$1,086,000,000 for "military assistance" which goes to allies and associated nations participating in the North Atlantic Treaty Organization, the Baghdad pact and the Southeast Asia Treaty Organization.

There are, in addition, "special assistance" funds of 212 million dollars to handle contingencies in Libya and Morocco, where America has bases for the Strategic Air Command and for health aids in Latin America.

Only 142 million dollars is earmarked for technical aid and special projects generally in various countries. There is a special "contingency fund" of 200 million dollars for emergencies that cannot be foreseen but which "with the turbulent state of the world today," as the President expresses it might require overnight action without waiting for Congress.

THE PRESIDENT seemed in his message quite conscious of the damage done heretofore by the use of vague terminology. He spoke pointedly, for instance, of the phrase "foreign aid" and said:

"This name is often used as though the program were some sort of give-away or handout to foreigners, without benefit to ourselves."

The big question now is whether partisan politics will ruin an essential program. For Mr. Eisenhower was really understanding the consequences that might follow if the United States withdrew its support on the defense fronts of the world and let the Communists gain an easy victory in the "cold war."

Cut Costs For Survival

By SAM DAWSON

NEW YORK (AP) — Tackling the mounting costs of running a store has gone from just a good idea to a necessity for most merchants in recent months. The ways of doing it are varied.

The rise of the discount stores jolted many of the traditional methods of older stores — and as a result, cost cutting as well as price cutting is being tried.

The drift of customers to outlying shopping centers hit downtown merchants hard, first the big city stores and then those in suburban business districts.

Increased bargain hunting by customers and stiffer competition

have spurred cost cutting to beat the recession.

The search takes several tactics. One is aimed at cutting clerking costs by a shift toward more and more self service.

The move to curtail deliveries has gained momentum. Some stores now charge for alterations to garments.

Costs of carrying credit customers, particularly slow payers, are being watched. Some merchants favor changing for credit service. Others prefer pushing the installment plan of buying and paying the same amount each month. This involves an interest charge, just as it does when you buy a car that way.

A few stores debate cutting off the time honored employees' discounts. This cost cutting device is opposed by others who argue that the employee discount is a prime lure for getting and keeping clerks and that dropping it would kick back unpleasantly.

A huge mountain of paper work piles up from the purchasing department through the warehousing and material handling departments. This is being tackled by electronic and automation engineers.

Large stores and chains already use automated warehousing and merchandise handling equipment, such as conveyors, pallet lifts and monorails.

Now they are exploring electronic accounting and stock control devices. The cost of mechanical brains gives many of them pause. Only the largest operations can see chances of getting the initial installation costs back in a reasonable time through savings. Despite giants in the field, retailing remains largely a small store enterprise.

Some of the medium size stores are talking of setting up cooperative data processing centers to lick this paper blizzard.

Religion At Work

Our Approach to Outer Space

With man-made satellites now spinning around the earth, there is new and serious concern about outer space.

The questions — what is out there and what to do about it? — are no longer an idle theme for fanciful fiction or comic book treatment; it has gone beyond that. It is now a subject for considered thinking and calm investigation.

There is good reason why we should want to learn everything possible on this question beyond the scope of man's current understanding. Vast scientific knowledge is involved; future growth and expansion are at stake; the nature and influence of the presently unknown will be a vital force and influence in future life and living.

BUT, TODAY'S approach to this subject seems to be based almost entirely on control.

Who will control outer space? Who will get there first and take over? What country or nation of people will have the advantage over other countries and other nations of people?

A special committee of U.S. senators has set out to define a national policy with this thought in mind. A prominent American military man states that a manned satellite "will become an all-seeing eye for control of the world."

Leaders of other nations cast worried glances to the blue beyond and wonder, "Will we control it?"

This sudden interest and activity appear to be based, primarily, on three assumptions: (1) that there is no control over outer space at present; (2) that outer

space will need control; (3) that control naturally will fall to the peoples of the earth.

What a shock to man's vanity if these assumptions should prove to be false!

Certainly somewhere in our frantic efforts we should allow for that possibility.

IF THERE IS NO present control over outer space, why has the universe run along in such orderly fashion for millions of years?

If control over outer space is now inadequate, what leads us to believe we could do a better job?

If we think the job belongs to us, what gives us the right to think so; who do we think we are to deserve that right?

It is, of course, a wise move on the part of our nation to engage actively in exploration of the space age now facing us. Significant scientific and economic factors are to be determined. We can even accept the importance of political and diplomatic implications.

But let us not overlook or discredit the spiritual aspects inherent in this situation.

The universe is no different today than it was yesterday; it will be no different tomorrow. Man will not change its basic characteristics. When he talks about control, he might better be talking about responsibility — his responsibility to a universe, his responsibility to a Power greater than any man-made power.

Do we truly believe this is God's world? If so, won't He have something to say about this? Has He perhaps already made other arrangements?

a short time it turned into sandstone sufficiently hard for the building enterprise.

"THAT'S A MIRACLE," exclaimed Charley.

I explained, however, that it was the operation of scientific law and pointed out it wasn't half as wonderful as the changes I had seen happen in men, through spiritual laws. I've known cases of weak, divided confused people into whose minds a life-changing "element" has been inserted. A famous example lived long ago. His name was Simon, a weak and variable man. But he became so sturdy that the One who changed him re-named him Peter, the rock.

But that transformation happens today as well as in Biblical times, and it happened to Charley; Jesus Christ changed him into a rock-like personality. He is a "whole-minder" now; no longer a hold out, but he goes all out in whatever he tackles.

I never cease to be amazed at what happens to people through the simple direct application of spiritual laws.

Not My will ...but Thine!

Christianity does not offer escape from duty.

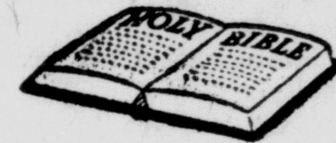

If it did, most of us would never find a seat in Church. The lazy and indifferent would be standing in line hours before we arrived.

Christianity does offer strength of purpose—the spiritual energy that transforms duty into achievement!

God's purpose and the courage to fulfill it—these the Church reveals and imparts.

In this pre-Easter season of Lent the attention of mankind is focused again on the Cross of Christ... on His strength of purpose and all that He suffered for us... on God's Victory for men.

Our churches call us to the Faith which makes difficulty a challenge—dread, a stepping-stone—despair, a memory.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

NEW HOSPITAL

This is the main building of the new 126-acre Hospital of Allegheny County.

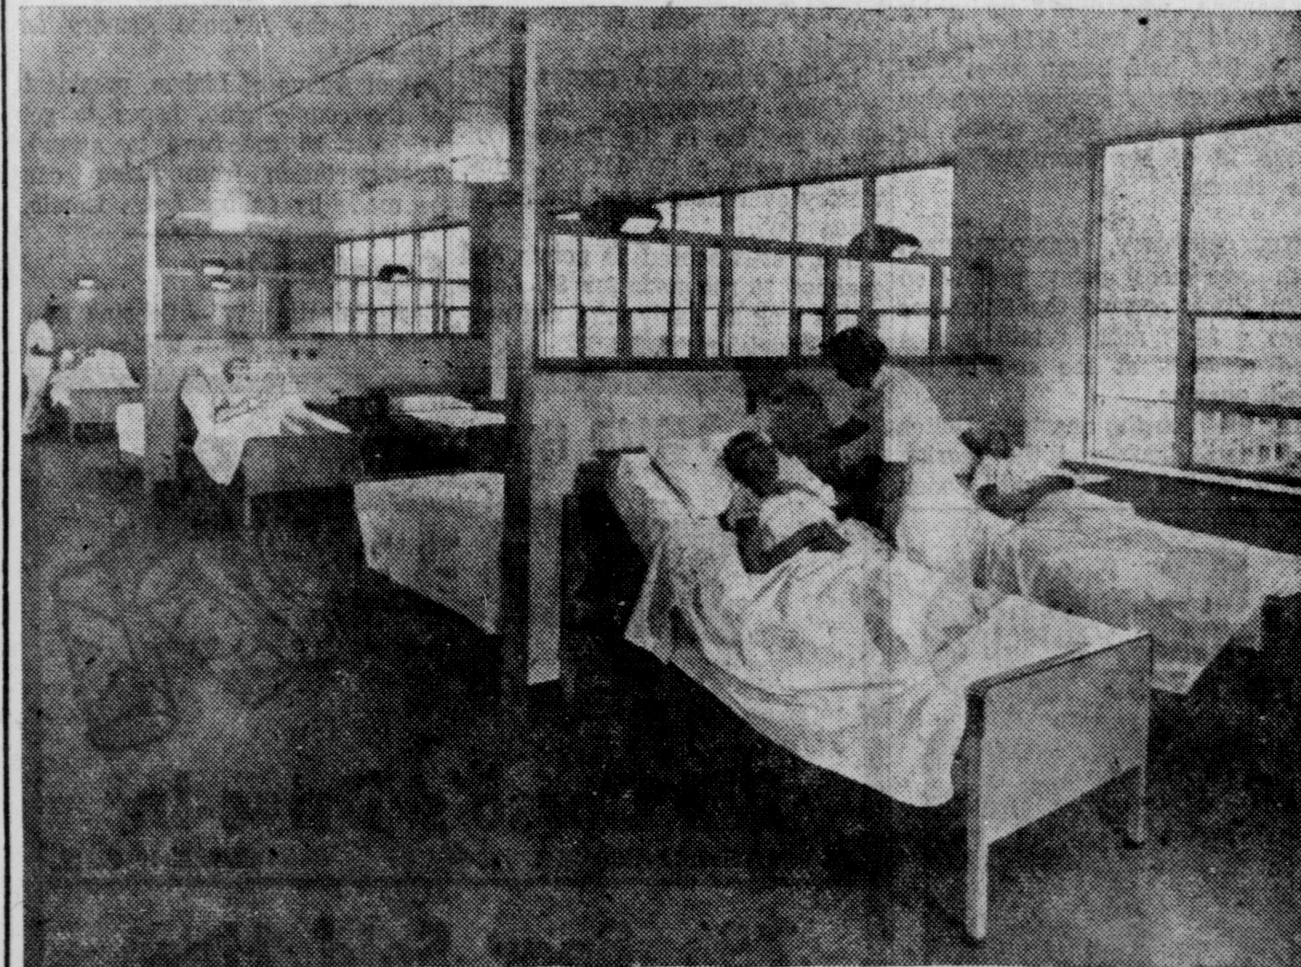

THE SICK AND DESTITUTE of Allegheny county, Pennsylvania, will be cared for soon in one of the most advanced hospitals of its kind in the world. The new county hospital, located in Pittsburgh, is ultramodern in design, with such structures as a bee-hive shaped dome for its auditorium, a triangular shaped interdenominational church and a main building flanked by glass walls to bring the outside world in to confined patients. A court ringed with windowed corridors is available for ambulatory patients. In addition to caring for the patients' mental and spiritual needs, the hospital has the most modern equipment.

Among the excellent technical equipment are the facilities of clinical lab.

Rapid delivery assures piping hot meals. Trains of steam carts deliver food.

This sunny, roomy ward is the largest type room in which patients are housed.

Salem Crosses First Tournament Hurdle 68-37

Blasts Hapless Girard Indians

Locals Are Paced
By Deitch, Platt

By Gordon Arndt

Salem's versatile scoring machine chugged along in low gear for two and one-half quarters, but once it was oiled up by a cage mechanic named Woody Deitch there was no stopping the Quakers as they rolled to an overwhelming 68-37 win over the Girard Indians in their first 1953 tournament encounter at Youngstown's South Fieldhouse Friday night.

If there was one Salem player whose actions pleased his coach and captivated the imagination of the paid crowd of 1,131, it was Deitch.

The 6-foot southpaw shooting junior entered the game for Jim Meissner with 6:35 left in the second quarter, and before he was replaced with 2:13 left in the game he had hit on 10 of 11 shots for 91.5 per cent and scored 20 points.

DEITCH'S 10 FIELD goals came on jump shots and drive-in layups. No sooner would Salem get the ball and Deitch would be speeding down the court, leading a fast break attack enroute to two points.

His consistent and effective scoring greatly aided the Quaker cause, besides demoralizing the Indians.

He was Salem's high scorer. Next in line was reliable Bob Platt. "Bouncing Butch" rimmed 19 tallies, including seven in the first quarter. Next in line for the victors was Bill Pauline with 12.

Steve Clapp had 12 for the losers who ended their season with a 4-15 showing. Salem's victory was their 18th straight this year.

THE QUAKERS HAD a hard time getting started. They fell behind at the outset 4-0 and didn't score a point until 5:05 was left when Clyde Marks hit a foul shot. The winner's first field goal came on an effort by Platt with 4:11 remaining in the opening frame.

Behind 9-7 toward the end of the initial frame, Platt scored five straight times and Salem moved into the lead to stay at 10-9 with 1:13 left in the quarter. Although Girard came within four points on several occasions, the Quakers were never headed thereafter.

Salem's rebounding trio of Lou Slaby, Marks and Pauline controlled the boards, but the locals fast break attacks were plagued here as they didn't result in field goals.

The Quakers would either miss shots or lose the ball in launching their breaking attack.

Platt hit another jump at the conclusion of the first frame and Salem led 12-9.

THE 5-9 SENIOR THEN teamed with Pauline to shove Salem ahead 18-10 early in the second quarter. Deitch entered the scene here for Marks, who had obtained his third personal, and he hit on three straight shots to keep Salem in the lead at 24-18 at the intermission.

Salem led 22-10 in the second frame at one time, but Girard scored eight straight points to cut the margin to 22-18 before Deitch ended the first half scoring with his third straight two-pointer.

In the second quarter, the officials, Andy Lindsay and Jack Cramb, called a personal foul on both Pauline and Marks at the same time. It was Marks' third one which resulted in Deitch's appearance.

Salem hit 10 of 30 shots and Girard 7 of 27 in the first 16 minutes.

Pauline, who didn't make his first field goal until 4:14 was left in the first half, began spearheading the Quakers' scoring campaign however in the third canto. He made 10 of his dozen tallies in the stanza.

HIS EFFORT, SANDWICHED with proficient point production from Platt, carried the Salemites from a 34-28 margin into a nice lead of 44-29 at the end of the third quarter.

In the fourth quarter, Deitch and Platt shouldered the scoring punch for the Quakers until Coach

WRONG SIGN — Goalie Hary Lumley of the Boston Bruins gives a V with his legs but he doesn't mean it. Actually, his motion on the situation was a bit different for Larry Popein of the New York Rangers just beat him with a goal.

John Cabas began clearing the bench with 4:28 left.

At one stage in the second half, Salem outscored Girard 26-3 to jump from a 34-28 lead to a huge margin of 60-31 after Deitch had hit on four shots in a row, including two jumps and two driving layups.

Dave Hunter, a 5-7 sophomore, picked up the scoring slack left on the departure of Deitch and Platt, scoring six of Salem's last eight points in the game. Darryl Adams rimmed the remaining pair.

FOR THE SECOND straight game, every Salem player participated. Against Girard last Tuesday, all the Quakers saw court combat in a 73-45 Salem win. Salem shot 24 of 60 for 40.0 percent while Girard made 13 of 54 attempts for 24.0 percent.

The Quakers hit on 20 of 27 fouls and the Indians, 11 of 17. The game was another contest in which the Quakers came from behind after a slow start. In games this season where one player has been down, others have risen to the task.

Slaby scored 20 points against Wellsville, and Meissner, 20 against Boardman. Last night Lou's average was 0-8 while Moe's was 0-7. However, it didn't matter that much in the lopsided victory as Deitch and Platt solved the scoring problems adequately.

In the first contest last night, Youngstown East outclassed a poor Youngstown North team 60-31 as the Golden Bear's Jim Snowden scored 25 tallies.

The Quakers will meet East next Thursday at 9 p. m. At 7:30 next Thursday, Youngstown South plays Austintown Pitch.

Hawks Post 119-100
Triumph Over Celtics

The St. Louis Hawks can clinch their second straight title in the Western Division of the National Basketball Assn. by beating Detroit today.

The Hawks clinched a tie Friday night when they topped the Boston Celtics 119-100 in St. Louis. It was the Hawks' fifth victory in the last six games.

The Detroit Pistons moved into second place behind St. Louis when they defeated Cincinnati 109-107 in Cincinnati, dropping the Royals to third.

In the other NBA games, Philadelphia strengthened its third place position in the Eastern Division with a 117-111 overtime victory over New York, the fourth place club.

Bob Pettit scored 29 points and grabbed 26 rebounds for St. Louis which took an early lead and never relinquished it.

Accept Invitation To Play In NIT

Dayton Gets Another Chance To Win Classic At New York

DAYTON, Ohio (AP)—The University of Dayton, Ohio's perennial entry in the National Invitation Tournament, gets another chance to win the New York basketball classic next month.

The 11th-ranked Flyers earlier this week accepted their seventh invitation to play in the NIT.

And Coach Tom Blackburn, whose teams have been frustrated in six previous bids for the post-season title, hopes try No. 7 will hit the jackpot.

The wily Dayton coach, a pessimist by nature, is non-committal about his team's chances. But Blackburn says he hopes "this club can do the unexpected as it has done all year," and adds:

"I'm tired of being a bridesmaid."

Four times Blackburn has brought his Flyers to the final round of the NIT only to go home empty-handed. Dayton lost the crown to Brigham Young in 1951, LaSalle in 1952, Duquesne in 1953 and Louisville in 1956.

This year's Dayton squad wasn't expected to land a post-season tournament berth. Graduation took three regulars and even loyal Flyer followers looked for a lean year.

Blackburn sized up the picture this way:

"We're rebuilding again. I'll be surprised if we lose less than 10 games."

But talented Tom went to work. He blended two outstanding soph prospects with three veterans and junked Dayton's fast break for possession, ball-control tactics.

The radical change baffled Dayton rooters but, more important, puzzled Flyer foes.

The combo of 6-6 Jack McCarthy, 6-4, Arlen Bockhorn, 6-0 Don Lane, all seniors, and sophs Frank Case, 62, and Terry Bockhorn, 62 (Arlen's brother), formed Blackburn's "Big Five."

This unit, combining a balanced offense and a stingy defense that has permitted opponents only 53.5 points per game, has won 20 of 22 games, including a current 13 game streak.

Blackburn, who admits his team's showing has come as a "pleasant surprise," attributes Dayton's success to "the tremendous drive and desire of the players themselves."

During the 11-year "Blackburn Era," Dayton has won 237 games and lost only 85, a winning average close to 75 per cent.

And Blackburn-coached teams have won 20 or more in seven of the last nine seasons. That's why some court observers feel this may be the year Blackburn and Dayton can cop the NIT.

They both make a habit of winning.

Ohio Bowling Tourney Sets All-Time Record

DAYTON, Ohio (AP)—Ohio's 54th annual bowling championship tournament, scheduled March 8-May 11 at Lorain, has attracted 845 teams, 1988 doubles, 976 singles and 2754 all-events entrants.

Carl A. Copp, state secretary, said the five-man team entry matched that of last year, but a boost in the other three categories elevated the 1953 tournament to the largest in history.

Miteff, Johansson Want No Part of Patterson Right Now

NEW YORK (AP)—The heavyweight division was in an old time tizzy today. Argentina's nose-slashed Alex Miteff and Sweden's undefeated Ingemar Johansson, the winners in Friday's two ma-

for fights, said they wanted no part of world champion Floyd Patterson right now.

Cuba's hulking Nino Valdes, who does want a title shot, still screamed "I wuz robbed."

That's the normal lament of a close loser. Only 33-year-old Nino, who lost to Miteff, added some Spanish touches after he dropped a narrow split 10-round decision in a savage, bloody (Miteff's blood) brawl in Madison Square Garden. It was an even money fight in the betting.

"Banditos (bandits)," howled Valdes, a 63, 209½-pound giant whose right eye was swollen grotesquely. "Robbers! Burglars!" he added for the benefit of English-speaking newsmen, and then lapsed into Spanish again.

His manager, voluble Bobby Gleason, matched Nino word for word but said he would not make any formal protest to the commission.

Referee Teddy Martin (6 rounds to 4), and judge Harold Barnes (5-4-1) voted for the 265-pound Miteff. Judge Nick Gamboli scored it for Valdes, 6-3-1. The AP scorecard had it 5-5 in rounds but Miteff ahead on points on the strength of a terrific first round.

Johansson, unbeaten European champion, stopped Joe Erskine in 13 rounds in Göteborg, Sweden, and knocked the British Empire ruler from Wales out of a promised title fight with Patterson in London this June. Erskine's seconds tossed in the towel after the 13th round ended to save the Welchman from further punishment. He absorbed a sound drubbing.

With salaries of some \$35,000 each for Miteff and 38-year-old Wynn, and about \$28,000 for the highly competitive Donovan, the trio may be inspired to hurl with a vengeance.

Furthermore, Manager Al Lopez now has the ex-Baltimore Oriole strong man, Ray Moore, who will be groomed to bolster one of Chicago's weak spots, lack of a hard throwing reliever in the late innings. Lopez is convinced he now has the best pitching staff in the American League, if not in the majors. His highest paid of all

Hose mound corps also includes Jim Wilson, Bill Fischer and Bob Keegan as likely starters. Conceivably, Lopez could rotate a six-man staff.

St. Francis Rolls Past Youngstown

By The Associated Press
Three of the four basketball games involving Ohio teams Friday night were battles right down to the wire.

Wilberforce, playing without leading scorer Abe Booker, edged Rio Grande 84-82; Marietta went into an overtime to beat Hiram 93-81; and St. Francis (Pa.) snapped Youngstown's six-game winning streak 55-52.

In the only other contest involving an Ohio squad, Defiance overcame a 10-point deficit in the first half to whip Cedarville 91-80.

In the absence of Booker, Wilberforce relied on Warner Wells and Clemmie Marthello, who dumped in 22 and 20 points, respectively.

But Carl Large of Rio Grande took scoring honors with 27 points. Marietta, led by Marv McCormick with 23 points, finished regulation play in a 77-77 tie. But the Pioneers ran away in the overtime, scoring 16 points to Hiram's 3.

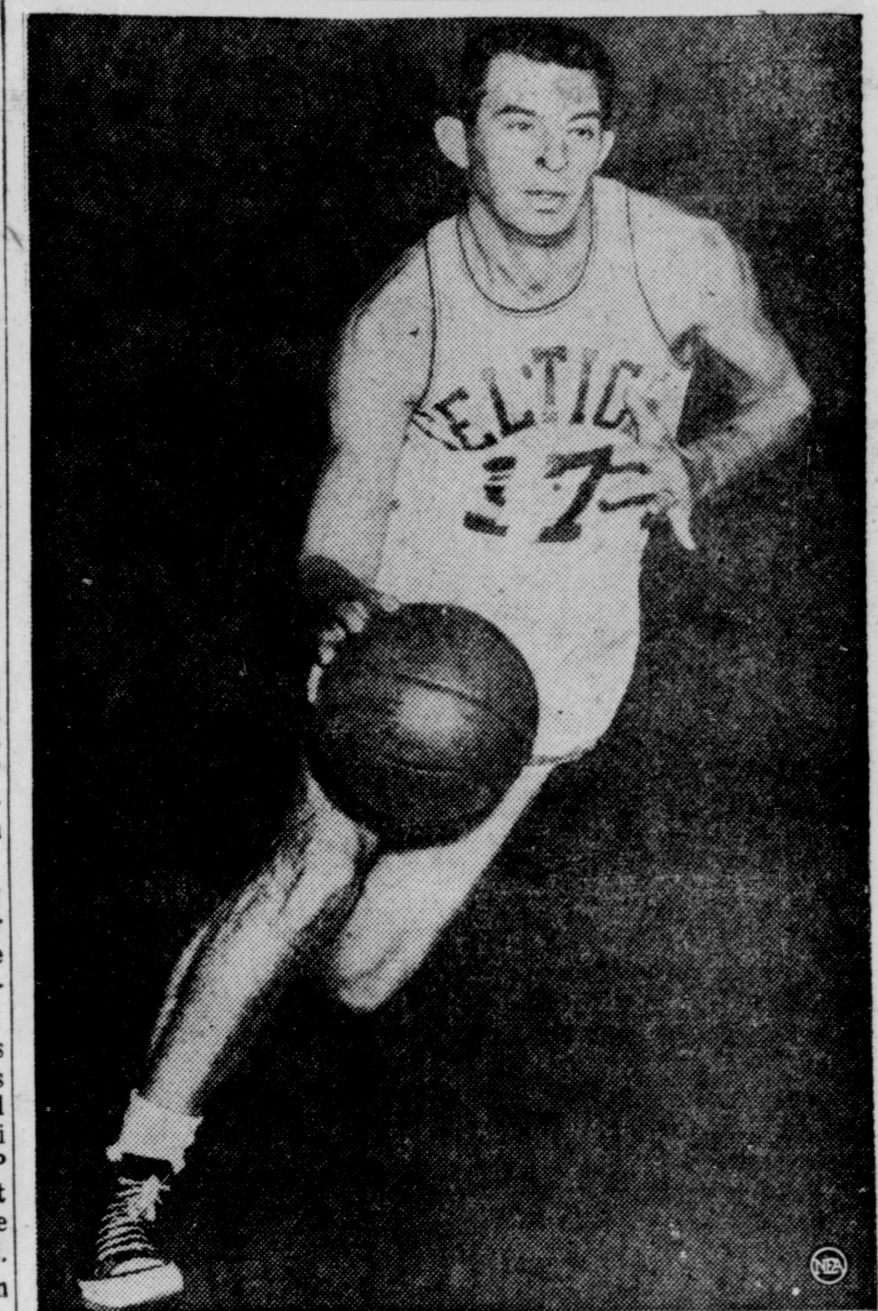

St. Francis beat Youngstown with free throws, both teams having hit on 7 per cent of their shots from the field.

Defiance rallied after being behind by 10 points and held a slim 45-43 intermission advantage. The winning Yellow Jackets, paced by Dick Szabo's 23 points, put on even more steam in the second half to ice the victory.

New York—Alex Miteff, 205, Argentina, outpointed Nino Valdes, 209½, Cuba, 1.

Syracuse University's 1925-26 national basketball champions lost only one game out of 20. The Orange bowed to Penn State 37-31.

HUBBARD TOURNEY SET.
The annual Hubbard amateur basketball tournament has been scheduled March 24-29 at Hubbard, William McBride, 41 Fox St., Hubbard, is taking entries.

NO ROCKING CHAIR NEEDED — At 36, Andy Phillip of the Boston Celtics is the oldest player in the National Basketball Association. But for 10 minutes or so at a stretch Phillip, a 10-year veteran in the league, can stay with the best.

Johnny Pesky Assigned To Coach Billy Martin

LAKELAND, Fla. (AP)—Johnny Pesky, former Detroit Tiger and Boston Red Sox shortstop, has taken on his third pupil — Billy Martin, a key figure in Detroit's hopes for a higher finish in the 1953 American League campaign.

Tiger manager Jack Tighe assigned Pesky Friday to teach Martin how to cover the vital infield position. Pesky now is a manager in the Tiger farm system.

Martin, obtained in the big trade with Kansas City this winter, never has played shortstop on a regular basis. Pesky previously tutored shortstop Harvey Kuenn and third baseman Reno Bertoia.

Duke Tallies 11th Straight Win By Defeating Maryland 68-59

By The Associated Press
College basketball will be out in full force tonight as hopeful drive for conference titles, tournament berths and national ranking. And among Seattle's Elgin Baylor, Cincinnati's Oscar Robertson and Kansas' Wilt Chamberlain for the individual scoring championship.

Of The Associated Press' top 10, all but fifth-ranked San Francisco and seventh-ranked Duke will be out and at it. Duke touched off another merry weekend Friday night by whipping to its 11th straight victory in a spectacular comeback, cementing its Atlantic Coast Conference lead with a 68-59 decision over Maryland. San Francisco spilled Santa Clara 67-50, running its win streak to 17

and giving coach Phil Woolpert his 100th victory in four years.

Among the biggies, top-rated Kansas State tries to protect its unsullied Big Eight record against Missouri. Second-ranked Cincinnati has all three prizes to point for against Tulsa — its national ranking, the Missouri Valley Conference lead, and ace sophomore Robertson's attempt to make up the three-tenths of a point that separates him from Seattle's Baylor, the scoring leader with a 33.6 average.

Third-rated West Virginia faces Pitt, sort of an NCAA preview Coast Conference lead with a 68-59 decision over Maryland. San Francisco spilled Santa Clara 67-50, running its win streak to 17

representative to the tournament. Kansas, No. 4, continues its Big Eight chase of K-State with Chamberlain and mates facing Nebraska. Temple, named Friday to represent its Mid Atlantic Conference in the NCAA, carried its No. 6 rating against Villanova at the Philadelphia Palestra. Oklahoma State, No. 8 and an NCAA at large choice, meets Houston while North Carolina State, No. 9 and still an ACC threat, plays LaSalle and Notre Dame, No. 10, has a date with Navy in continuing its NCAA warmups.

Among the leading pairings in conferences which send on representatives to tournaments are Kentucky - Alabama, Arkansas - Texas A&M, Texas Tech-SMU, Michigan State - Wisconsin, Bradley-St. Louis, California - Washington State, New Mexico A&M-West Texas State, Toledo-Miami (Ohio) Dartmouth - Princeton, Harvard - Penn and Marshall-Kent State.

Walker Approached On Marquette Post

MILWAUKEE (AP)—Among those approached about taking the head coaching job in basketball at Marquette University is Paul Walker of Middletown, Ohio. Walker's Middletown High team won its 70th straight game Friday night.

Larry (Moon) Mullins, Marquette athletic director, said Friday that others approached include Jim Harding of Loyola of the South at New Orleans and Bill Knapp of Beloit (Wis.) College.

Mullins said the Ohio coach replied to a Marquette request for additional information, but did not apply for the job. Jack Nagle, who was paid about \$8,000 a year as Marquette basketball coach, resigned recently for "personal reasons."

GETTING READY — Jim Hegan, Cleveland Indians' catcher since 1941, starts packing in his Lakewood, Ohio, home after he was traded to the Detroit Tigers. General Manager Frank Lane said he made the move because of the veteran's desire to continue catching. The Indians had planned to make the 37-year-old Hegan a coach.

St. Pauls To Conduct Daily Prayer Service

LEETONIA — The Missionary Society of St. Paul's Lutheran Church will conduct a series of Prayer and Self Denial Services in the Church Parlor next week. Mrs. Joseph Woodward and Mrs. Thomas Cope will present the meditations Tuesday afternoon; Mrs. R. C. Brillhart, Wednesday and Mrs. T. P. Laughner and Mrs. Fred Spaholtz Friday. All meetings will be held at 2 p.m. The theme is "We Are Witnesses for Christ."

MRS. ORVILLE CHELLIS will entertain the Willing Workers Class Monday evening. Mrs. Clarence Barnes, Mrs. Harry Fenstermaker and Mrs. Alvin Fire are the associate hostesses.

The Ruth Bible Class of the Methodist Church met in the social room of the Church Thursday evening with 13 members and one guest present. Devotions were read by Mrs. Bea Hisey. The hostesses were Mrs. Raymond Leonard and Mrs. Ed Gotthardt.

The Rebekah Lodge will sponsor benefit card party this evening. There will be lunch and prizes.

CIVIL DEFENSE first aid classes will start Tuesday at 7 p.m. in the high school.

All members are urged to attend these classes.

Next week's menus at the Leetonia School cafeteria are as follows: Monday — toasted cheese sandwiches, buttered green beans, carrot and celery strips, sliced peaches, milk; Tuesday — mashed potatoes, hamburger gravy, fruit jelly, cheese strips, pickles, milk.

Wednesday—peanut butter sandwiches, chicken-noodle soup, pickles, pickled beets, cake with cherry dip, milk; Thursday — roast beef sandwiches, gravy, scalloped potatoes, buttered peas, cookies, milk; Friday — baked tuna fish and noodles, lettuce salad, carrots and celery, cheese strips, bread and butter, ice cream, milk.

THE LADIES AUXILIARY of the American Legion held its regular meeting Wednesday evening. Mrs. Rosa Cox was chosen as delegate to attend the Mid-Winter Auxiliary Convention in Columbus this weekend. Mrs. John Candle is alternate. The Girl Scouts will be guests at the first regular meeting in March. Members are requested to pick up their pie pans at Isaly's.

"GROW SPIRITUALLY" is this year's Lenten Theme at St. Paul's Lutheran Church. Study hour is at 9:30 a.m. each Sunday and worship at 10:45. "The Church at Worship" will be the Sunday School lesson and, "Now is the Time" will be the subject of the sermon. "Point Of No Return" will be the subject of the sermon at the 11 a.m. Church Service at the Presbyterian Church Sunday. Rev. William Woodall is pastor.

H. R. McBride, registrar of motor vehicles, wishes to announce that persons desiring special numbers should complete application before March 1.

\$5,000 Award To Be Given To Hoover

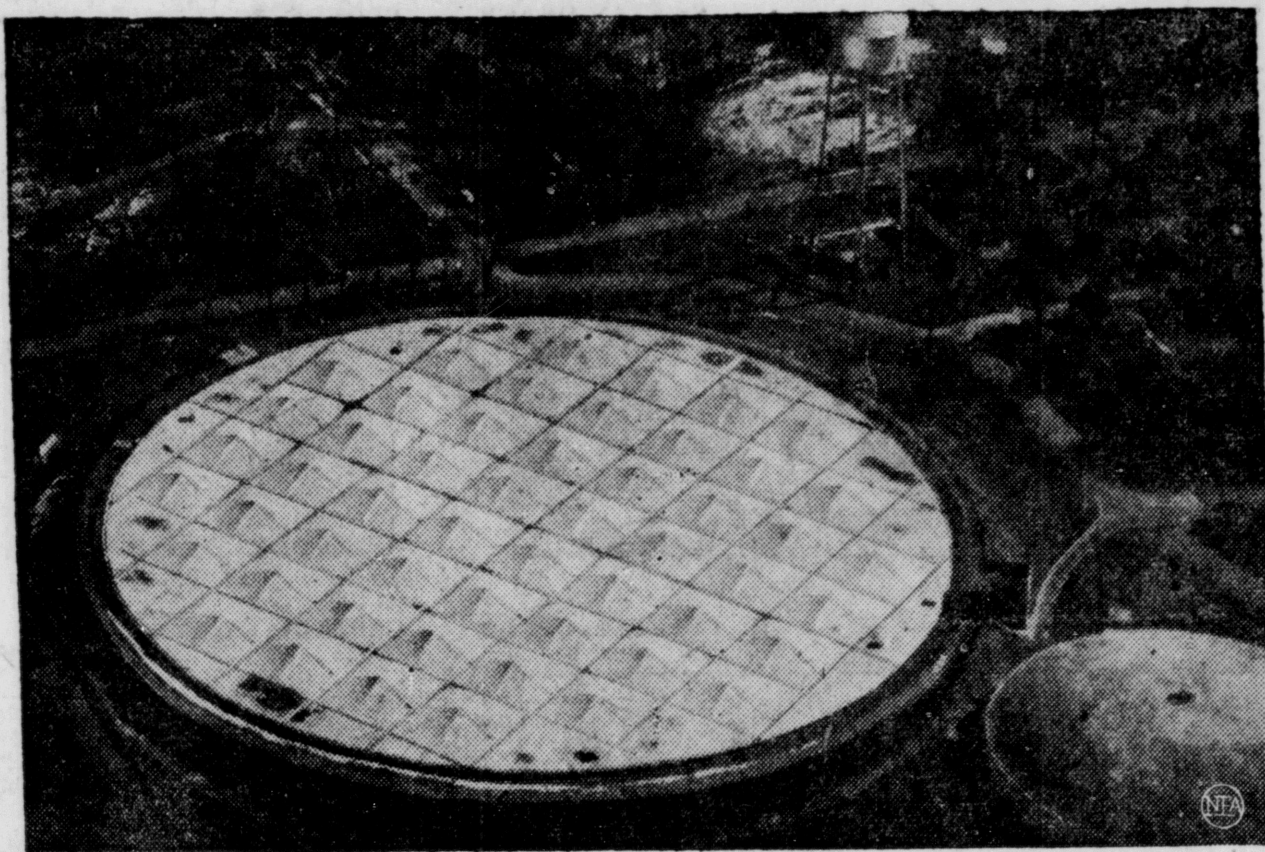

VALLEY FORGE, Pa. (AP)—Freedom Foundation today singled out 768 individuals, organizations and schools, including former President Herbert Hoover, for writing, talking and doing things in 1957 that promoted a better understanding of the United States, its people and its philosophies.

In cash, today's awards totaled \$39,900, but an additional \$60,000 is spent for medals, libraries for schools and expenses for teachers and pupils making annual pilgrimages to Valley Forge.

The former president will make a nationwide television address (ABC) at 3 p.m. EST when he accepts the \$5,000 award which goes with his citation.

Questions and Answers

I doubt if anyone disagrees to-day that the emotions can influence what appears to be physical symptoms. This is brought out in today's first question.

Q — I read that sinus trouble can be triggered by an emotional upset and that emotional tension can also cause headaches. Do you agree?

A — Practically every medical discussion of headaches mentions the importance of emotional factors. The relationship is perhaps less clear with sinusitis, but there are a good many people who have reported a direct relationship between the symptoms of their sinus infection and an emotional upset. Here too, there seems little doubt that a connection can exist.

Q — I have been told that I have a thyroid adenoma. How does this affect one's physical condition and is surgery necessary?

A — This term refers to a non-cancerous tumor with a gland-like structure involving the thyroid gland in the front of the neck. Such tumors vary in size; some are toxic and produce poisonous substances and some do not. The decision as to whether or not such a tumor should be removed by operation therefore depends on a number of factors, including size, location, toxicity, and the like. In a great many instances, it is considered wise to take them out surgically.

Q — Please say something about scoliosis. What causes it and what can be done for it?

A — Scoliosis refers to a curvature of the spine in a sideways direction. It is considered a deformity rather than a disease because there are a considerable number of possible causes. In some the cause appears to be the result of temporary poor posture and this variety is relatively easy to correct. Some are congenital in origin.

gin, that is, present at birth. Someday that the emotions can influence what appears to be physical symptoms. This is brought out in today's first question.

Q — Can you explain what causes me to sigh a lot? It has me somewhat concerned.

A — This is probably a subconscious action related to a poorly understood nervous system function. So far as I know it does not have any significance from the standpoint of disease.

STORIES OF Gems and Gem Stones

THE CULLINAN DIAMOND

One of the largest and most important diamonds discovered during recent years, the Cullinan was found in South Africa in 1905. A LOOK at its history reveals that it was purchased by the Transvaal Government for \$800,000 and presented to King Edward VII of England on his birthday, in gratitude for his grant of a constitution to the Transvaal Colony.

Because King Edward wanted to see the diamond, it was insured for \$2,500,000 and sent to him under heavy guard. Upon seeing the gem, the King said, "This is a great curiosity; but I should have kicked it aside as a lump of glass if I had seen it in the road."

Then, jewel specialists discovered that this already famous gem had a flaw in the center. After studying it for many months, the experts decided to cut it into three smaller stones. The largest of these stones, weighing 530 carats, is now set in the scepter of the British royal regalia, and was renamed "The Star of Africa" by George V because he felt it should be named for a part of the British Empire. The second stone, weighing 209 carats was set in the crown . . . and the third was cut into smaller stones, weighing from 94 to 4 1/2 carats, all of which are among the crown jewels of Great Britain, together with pearls, sapphires, emeralds and rubies.
